L: 30.7" (78cm).
W: 13" (33cm).
H: 13.8" (35cm).

Weight 4.14kg.

The Secret is in the Bag

Petrol, a Vitec Group brand, introduces the Dr. Petrol camera carrier. Inspired by the traditional doctor's bag, this new semi hard equipment bag is uniquely designed to hold a camera and accessories comfortably and securely, and offer fast and easy access to its contents. Dr. Petrol's hinged top unzips smoothly and opens extra wide to the generous central compartment. Inside there is ample room for inserting a camera fully equipped, without disturbing the mic, viewfinder, or mattebox system. Detachable padded dividers help secure contents and can be custom configured into pockets for important accessories like batteries, camera light. Contents are cradled on all sides by layers of cushioned orange fabric. Upper panels of shockproof cold molded laminate safeguard equipment and provide extra protection. Additional features include an exterior side pocket for additional storage, detachable nylon straps for attaching to a separate trolley assembly, U-Grip ergonomic interlock carrying handle, adjustable ergonomic padded shoulder strap, and Petrol's dual directional easy-glide zippers. The carrier's exterior is constructed of heavy duty blue and black Cordura.
